

C157

STAMPING C 157 1960
USGS QUAD MAP MAMMOTH (1986)
NGS PID PY0138

LATITUDE 44.970084655
LONGITUDE -110.701927462
ELEVATION 1928 m

DATE OF DESCRIPTION 2002

DESCRIPTION The station is located in the northwest part of Yellowstone National Park, 1.0 km (0.6 mi) south of Mammoth, along the Mammoth-Norris Junction road, at the highest point of the road near Capitol Hill, across road from the Mammoth Hot Springs, just northeast of a small parking area (the most southern parking area that provides access to the lower Mammoth Hot Springs terrace), in a flat, open area. To reach the station from the Yellowstone Park post office in Mammoth, go south for 1.0 km (0.6 mi) on the Norris Junction road to the top of a hill and the station on the left. The station is a standard bench mark disk stamped “C 157 1960” set into the top of a round concrete monument 30 cm in diameter projecting 5 cm above ground. The mark is located 13.9 meters (45.5 ft) northeast from the approximate center of road, 0.3 meters higher than the road, 29.0 meters (95.0 ft) north from the junction of road center and the northwest entrance to a small parking lot and 0.34 meters (1.1 ft) southwest from a short (~0.3 m) metal post.

Looking north at bench mark (under orange hard hat) and across Mammoth-Norris highway at parking for lower hot springs terrace.

Looking west from lower hot springs terrace parking area at bench mark (in exact center of photo) and Capitol Hill.

Looking south along Mammoth-Norris highway at bench mark (under orange hard hat).

Close-up of bench mark.
